

HARRINGTON
HOISTS AND CRANES

NER/ER
THREE PHASE
ELECTRIC

C H A I N H O I S T S

Working Harder For You

In 1876, Edwin Harrington dramatically improved the self-sustaining hoist by introducing the worm-gear design. Since then, the company he founded has earned a proud reputation for product innovations and consistent quality that our customers count on to meet their diverse requirements.

Over the years we have developed and grown by recognizing the value of our customers and responding to your needs. The daily mission of our organization is to provide you, the customer, with the highest quality in our products, service and support.

In addition to our superior products and expanded facilities, we offer a Sales and Customer Service team that is dedicated to serving you, a well qualified Engineering Department to support your technical needs and a full support staff who all know the importance of working together to provide solutions for your material handling projects.

We are working harder to be the supplier-of-choice for all of your hoist and crane applications.

NER/ER Electric Chain Hoists

Enhanced Features

UL® Listed*

Certified and listed to UL 1340 "Standard for Hoists."

Easy Access Suspension

External pins allow for quick change from hook to lug for trolley mount configurations on most models.

Perpendicular Orientation

PT push trolley mount and MR motorized trolley mount hoists are configured as perpendicular to the beam on single fall models. Parallel mount is available as an option.

High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Notched Hook and Latch System

Provides positive closing and improves resistance against lateral forces standard on most models.

Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

Limit Switches

Low-profile upper and lower limit switches are standard.

Contactor

Mechanically interlocked, heavy-duty contactors on single speed models.

Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

“The Guardian” Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. **10 year hoist brake warranty.**

Pendant Controls

Ergonomic design for operator comfort. Red button emergency stop is standard on all 4-button and on 2-button dual speed pendants.

NER/ER Electric Chain Hoists

“The Guardian”: Smart Brake Technology
 Revolutionary DC current motor brake with electrical failsafe design. **10 year warranty.**

Suspension

Hoist is easily changed from hook to lug mount configurations with external suspension pins on most models.

Totally Enclosed Fan Cooled (TEFC) Motor

Engineered motor fin, fan blade and fan cover design cools the motor and brake.

Extreme Duty Motor

Increased performance through 60 minute duty rating, H4 classification, Class B insulation, cooling fins and standard thermal motor protection. Offers higher horsepower than most competitors.

Durable Push Button Pendant

Easy to use, one-handed operation. Rated IP65. Standard control voltage is 110V. Strain relief wire is molded to pendant cord for added support and dependability. E-stop is standard on all 4-button pendants and on 2-button dual speed pendants.

Upper/Lower Limit Switches

Low profile upper and lower limit switches provide excellent headroom.

Load Sheave

5 or 6 deep-groove pockets fully support the load chain during operation. Reduces vibration and chain wear. Provides true vertical lift.

Forged Carbon Steel Hooks

Under excessive loads will open gradually and not fracture. Ball bearings produce smooth rotation. Bottom hook will swivel 360 degrees. Heavy-duty hook latches are standard.

Unique Chain Guide

Provides quiet and smooth guiding of chain. Easily replaced without hoist disassembly. Heavy cast iron construction for improved wear versus stamped steel design offered by many manufacturers.

Heat Treated Helical and Spur Gears

Precision machined for long life. Oil bath lubrication results in a quiet, smooth, cool operation.

Mechanical Load Brake

Mechanical (secondary) Weston-style load brake standard on ER models.

Long Life Friction Clutch

Protects hoist from damage and prevents overwinding. ER model couples Weston-style load brake with friction clutch.

Compact Aluminum Body

Die-cast body is lightweight and offers low headroom – one of the best in the industry. Paint is electrostatically applied.

Completely Sealed Body

Suitable for both indoor and outdoor applications, including harsh environments. (Consult Owner's Manual for details.) Gaskets throughout the hoist provide for an IP55 rating.

Contactors

Mechanically interlocked heavy-duty contactors (single speed).

Variable Frequency Drive

Dual speed controls via "under-the-cover" variable frequency drive standard. Optional 2-step and 3-step infinitely variable control.

Count Hour Meter

This maintenance feature tracks motor starts, running time and usage history by instant digital display. Meter operates independently of the hoist. Integral to VFD on dual speed models.

Easy Maintenance Control Panel

Simple layout of controls and a single swing-down panel. Captured control cover provides standard wiring diagram and allows fast on-site access.

Plug-in Connections

Saves valuable time on set up and maintenance. "Quick disconnect" replaces typical competitive hard-wired designs.

Corrosion Resistant Load Chain

Nickel-plated, Grade 80, DIN chain for superb durability and strength.

Operating Conditions

Recommended for -4° to +104° F and humidity of 85% or less.

NER/ER Electric Chain Hoists with Hook and Lug Suspensions

NER/ER010L
(Shown with optional
canvas chain container)

We have added several new features and upgrades to our NER/ER Series of electric chain hoists. These improvements to our high quality, full-featured hoist include the latest technologies making these models absolutely the best electric chain hoists in the market today.

Features and Benefits

UL® Listed**

Certified and listed to UL 1340 "Standard for Hoists."

Easy Access Suspension

External pins allow for quick change from hook to lug for trolley mount configurations on most models.

Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Notched Hook and Latch System

Provides positive closing and improves resistance against lateral forces.

Limit Switches

Low-profile upper and lower limit switches are standard.

Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

Contactors

Mechanically interlocked, heavy-duty contactors on single speed models.

High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

"The Guardian": Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

Pendant Controls

Ergonomic design for operator comfort. Red button emergency stop is standard on all 2-button dual speed pendants.

Standard Hoist Specifications

Capacity Range

NER/ER – 1/8 Ton – 5 Ton
(See page 30 for 8 – 20 Ton)

Standard Voltage

208-230 / 460-3-60
Optional voltages available
Dual speed models are not reconnectable

Control Voltage

110V (optional 24V)

Duty Cycle*

Single Speed – 60 Min.
Dual Speed – 30/10 Min. with VFD

Classification*

ASME H4
ISO M5
FEM 2M or 1Am

Conformance**

UL 1340

Ratings

Hoist – NEMA 4, IP55
Pendant – IP65

Upper/Lower Limit Switch

Overwinding / overlifting device
Standard on all models

Chain Falls***

Single chain fall through 3 Ton

Standard Lift

10' (longer lifts available)

Standard Pendant Drop

4' less than lift (longer drops available)

Standard Power Supply Length

15' (longer lengths available)

Mounting

Hook, lug or trolley

Standard Pendants

Single speed: 2-button (momentary contacts)
Dual speed: 2-button (momentary contacts) with emergency On/Off (maintained contacts)

Chain Containers

Optional
Canvas, plastic or steel

Operating Conditions

Recommended for -4° to +104° F and humidity of 85% or less.

NER vs. ER Features

ER model has same high-quality features as NER plus the following:

- Second brake—
Weston-style
mechanical load brake

*See page 46 for additional information.

**Most models shipped with UL listing. Contact Customer Service for listed models.

***The 3 Ton (N)ER030L is the previous hoist model..

NERM/ERM Electric Chain Hoists with Motorized Trolleys

NERM/ERM020L-L/S
(Shown with optional
canvas chain container)

The MR Series of electric trolleys further expand the capabilities of our NER/ER line of electric hoists. These trolleys feature an innovative side guide roller system that results in very smooth travel along the beam.

Features and Benefits

UL® Listed**

Certified and listed to UL 1340 "Standard for Hoists."

Easy Access Suspension

External pins allow for quick change from hook to lug for trolley mount configurations on most models.

Perpendicular Orientation

MR motorized trolley mount hoists are configured as perpendicular to the beam. Parallel mount is available as an option.

Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Notched Hook and Latch System

Provides positive closing and improves resistance against lateral forces.

High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

Limit Switches

Low-profile upper and lower limit switches are standard.

Contactors

Mechanically interlocked, heavy-duty contactors on single speed models.

Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists and trolleys. Speed ratio is 6:1 with adjustability up to 12:1.

"The Guardian": Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

Pendant Controls

Ergonomic design for operator comfort. Red button emergency stop is standard on all 4-button pendants.

Standard Motorized Trolley Specifications

Capacity Range

1/8 Ton – 5 Ton
(See page 34 for 8 – 20 Ton)

Standard Voltage

208-230/460-3-60
Optional voltages available
Dual speed models are not reconnectable

Control Voltage

110V (optional 24V)

Duty Cycle*

Single Speed – 30 Min.
Dual Speed – 30/10 Min. with VFD

Classification*

ASME H4
ISO M5 or M4
FEM 2M or 1Am

Ratings

Trolley – IP55
Pendant – IP65

Standard Pendants

4-button (momentary contacts) with emergency on/off (maintained contacts)

Shafts

Standard shafts fit wide range
Longer shafts for wider beams
Spacers for easy adjustments

Drop Stops

Standard

Bumpers

Standard

Wheels

All steel
Shielded ball bearings
Fit flat or tapered beam flange

Standard Power Supply Length

30' (longer lengths available)

Standard Pendant Drop

4' less than lift (longer drops available)

*See page 46 for additional information.

**Most models shipped with UL listing. Contact Customer Service for listed models. The 3 Ton (N)ERM030L is the previous hoist model.

MR Motorized Trolleys

Built-In Drop Stops

Important feature provides additional security for the operator and the equipment.

Heavy-Duty Motor

Designed for top performance with high-horsepower, 30-minute duty rating, cooling fins and standard thermal motor protection. Motor is totally enclosed, non-ventilated (TENV).

Sealed Protection

Appropriate for both indoor and outdoor applications, including harsh environments. (Consult owner's manuals for details.) Gaskets throughout the trolley provide for an IP55 rating.

Pull-Rotor Motor Brake

Extremely durable and reliable, this advanced design furnishes precision load control, deceleration and long life.

Rubber Bumpers

Standard feature on all motorized trolleys. Provides protection from collisions. Complies with ASME standards.

Side Guide Rollers

Four ball bearing supported rollers enhance smooth trolley motion and reduce wear of the wheels and beam.

Cable Support Arm Assembly

Convenient "tow bar" is standard component that gives support and guides the power supply festooning.

Pendant Plug-In Connections

Saves valuable time on setup and maintenance. "Quick disconnect" replaces typical competitive hard-wired designs.

NERP/ERP and NERG/ERG Electric Chain Hoists with Push or Geared Trolleys

NERP/ERP010S
 (Shown with optional
 canvas chain container
 and rubber bumpers)

Mounting our NER/ER Series hoists to either a PT push or GT geared trolley will create an easy and economical method of transporting the load. This combination is ideal for small workshops and infrequent moves.

Features and Benefits

UL® Listed**

Certified and listed to UL 1340 "Standard for Hoists."

Easy Access Suspension

External pins allow for quick change from hook to lug for trolley mount configurations on most models.

Perpendicular Orientation

PT push trolley mount hoists are configured as perpendicular to the beam. Parallel mount is available as an option.

Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Notched Hook and Latch System

Provides positive closing and improves resistance against lateral forces.

High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

Limit Switches

Low-profile upper and lower limit switches are standard.

Contactors

Mechanically interlocked, heavy-duty contactors on single speed models.

Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

"The Guardian": Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

Pendant Controls

Ergonomic design for operator comfort. Red button emergency stop is standard on all 2-button dual speed pendants.

Standard Trolley Specifications

Capacity Range

PT Push – 1/8 Ton – 5 Ton
 GT Geared – 1/8 – 5 Ton
 (See page 38 for 8 – 20 Ton)

Shafts

Standard shafts fit wide range
 Longer shafts for wider beams
 Spacers for easy adjustments

Drop Stops

Standard

Bumpers

Optional

Standard Hand Chain Drop

On geared trolleys
 2' less than lift
 (longer drops available)

Wheels

All steel
 Sealed ball bearings
 Fit flat or tapered beam flange

Standard Hoist Pendant Drop

4' less than lift
 (longer drops available)

Standard Hoist Power Supply Length

15' (longer lengths available)

Standard Pendants

Single speed: 2-button
 (momentary contacts)
 Dual speed: 2-button
 (momentary contacts)
 with emergency On/Off
 (maintained contacts)

The 3 Ton (N)ERP030L and (N)ERG030L are the previous hoist models.

**Most models shipped with UL listing. Contact Customer Service for listed models.

NER/ER Large Capacity Electric Chain Hoists with Hook and Lug Suspensions

NER/ER100S
(Shown with optional
canvas chain containers)

Large capacity lifting is now available in both our NER and ER models. Our three phase electric chain hoists provide the duty cycle, durability and ease of operation needed to support most heavy lifting applications.

Features and Benefits

UL® Listed**

Certified and listed to UL 1340 "Standard for Hoists."

Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Heavy-Duty Hook Latches

Standard

Limit Switches

Low-profile upper and lower limit switches are standard.

Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

Contactors

Mechanically interlocked, heavy-duty contactors on single speed models.

High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

"The Guardian": Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

Pendant Controls

Ergonomic design for operator comfort. Red button emergency stop is standard on all 2-button dual speed pendants.

Standard Hoist Specifications

Large Capacity Range

NER/ER 8 Ton – 20 Ton
(See page 8 for 1/8 – 5 Ton)

Standard Voltage

208-230/460-3-60
Optional voltages available
Dual speed models are not reconnectable

Control Voltage

110V (optional 24V)

Classification*

ASME H4
ISO M5
FEM 2M or 1Am

Conformance**

UL 1340

Duty Cycle*

Single Speed – 60 Min.
Dual Speed – 30/10 Min. with VFD

Ratings

Hoist – NEMA 4, IP55
Pendant – IP65

Upper / Lower Limit Switch

Overwinding/overlifting device
Standard on all models

Standard Pendants

Single speed: 2-button (momentary contacts)
Dual speed: 2-button (momentary contacts) with emergency On/Off (maintained contacts)

Standard Lift

10' (longer lifts available)

Standard Pendant Drop

4' less than lift (longer drops available)

Standard Power Supply Length

30' (longer lengths available)

Mounting

Hook, lug or trolley

Chain Containers

Optional
Canvas or steel

Operating Conditions

Recommended for -4° to +104° F and humidity of 85% or less.

NER vs. ER Features

ER model has same high-quality features as NER plus the following:

- Second brake—Weston-style mechanical load brake

*See page 46 for additional information.

** Most models shipped with UL listing. Contact Customer Service for listed models.

NER/ER Large Capacity Electric Chain Hoists with Hook and Lug Suspensions

NERM/ERM Large Capacity Electric Chain Hoists with Motorized Trolleys

NERM/ERM100S-L
 (Shown with optional
 canvas chain containers)

MR trolleys are suitable for harsh or outdoor applications and easily couple with NER/ER large capacity hoists for the heaviest lifting and traversing requirements. Features include thermal motor protection, side guide rollers for smooth operation and plug in electrical connections.

Features and Benefits

UL® Listed**

Certified and listed to UL 1340 "Standard for Hoists."

Perpendicular Orientation

MR motorized trolley mount hoists are configured as perpendicular to the beam.

Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Heavy-Duty Hook Latches

Standard

High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

NERP/ERP and NERG/ERG Large Capacity Electric Chain Hoists with Push or Geared Trolleys

NERP/ERP080S
(Shown with
optional canvas
chain container)

Harrington's PT push and GT geared trolleys provide added mobility to NER/ER hoists and feature a compact, lightweight design for ease of installation and use. Manual trolleys are the best choice for jobs requiring infrequent moves.

Features and Benefits

UL® Listed**

Certified and listed to UL 1340 "Standard for Hoists."

Perpendicular Orientation

PT push trolley mount hoists are configured as perpendicular to the beam.

Green Initiative

Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Heavy-Duty Hook Latches

Standard

High Air Flow

Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

Extended Chain Life

Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

Unique Load Sheave

Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

Limit Switches

Low-profile upper and lower limit switches are standard.

Contactors

Mechanically interlocked, heavy-duty contactors on single speed models.

Friction Clutch and Load Brake

Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

Dual Speed VFD

Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

High Strength, Corrosion and Wear Resistant Load Chain

Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

Standard Count Hour Meter

Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

"The Guardian": Smart Brake Technology

A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

Pendant Controls

Ergonomic design for operator comfort. Red button emergency stop is standard on all 2-button dual speed pendants.

Standard Trolley Specifications

Capacity Range

Push – 8 Ton – 10 Ton
Geared – 8 Ton – 20 Ton
(See page 22 for 1/8 – 5 Ton)

Shafts

Standard shafts fit wide range
Longer shafts for wider beams
Spacers for easy adjustments

Drop Stops

Standard

Bumpers

Optional

Standard Hand Chain Drop

On geared trolleys
2' less than lift (longer drops available)

Wheels

All steel
Shielded ball bearings
Fit flat or tapered beam flange

Standard Hoist Pendant Drop

4' less than lift
(longer drops available)

Standard Hoist Power Supply Length

30' (longer lengths available)

Standard Pendants

Single speed: 2-button
(momentary contacts)
Dual speed: 2-button
(momentary contacts)
with emergency On/Off
(maintained contacts)

**Most models shipped with UL listing. Contact Customer Service for listed models.

Options and Technical Data

LOAD LIMITER

Reduces the potential for making hazardous, over-capacity lifts. The load limiter is preset at 115% of rated capacity and protects the hoist mechanism from damage due to overloading. Overloading the hoist electrically activates the load limiter, making the hoist inoperable (load can still be lowered at any time).

STEEL CHAIN CONTAINERS

Containers are installed differently depending on the type of product or lift. The steel containers may not cover the standard beam curve radii depending on their installation conditions.

BULLARD® AND SHUR-LOC® HOOKS

These hooks offer a positive locking latch feature. Consult Customer Service for full details.

Bullard®

Shur-Loc®

Options and Technical Data

VARIABLE FREQUENCY DRIVE – VFD (INVERTER FOR SMOOTH TRANSITIONAL SPEED)

The dual speed inverter delivers smoother movement than contactor control which reduces load swing. The inverter can be programmed to operate specific to the application resulting in smooth starts, improved control, improved positioning accuracy and overall increased productivity. The standard speed ratio is 6:1 adjustable up to 12:1* for lifting and 10:1* for traversing.

(N)ER/MR inverter unit is well-customized for lifting/traversing applications including exclusive software and is also provided with measures against impact and heat which were verified through long-run tests.

**For a speed ratio other than the standard of 2-step or 3-step infinitely variable, please make the request at the time of placing an order.*

UL Standards

The UL mark applied to products in the United States indicates that UL has performed product testing and evaluation and determined that their stringent standards for product safety have been met. For a product to receive UL certification, all components inside that product must also receive UL certification.

SPEED COMPARISONS

VFD HOIST CONTROL DESCRIPTIONS

Dual Speed Control

Uses a 2-step button and a VFD to control the speed. Pressing the button to the first step causes the hoist to accelerate smoothly to the low speed. Pressing the button to the second step causes the hoist to accelerate smoothly to the high speed. Releasing the button from the second step to the first step causes the hoist to smoothly decelerate to the low speed. Releasing the button completely from any step causes the hoist to decelerate quickly to a stop with the brake holding the load.

2-Step Infinitely Variable Control

Uses a 2-step button and a VFD to control the speed. The acceleration rate can be changed by changing parameters in the VFD. The 2-Step Infinitely Variable differs from Dual Speed Control in that when releasing the button from the second step to the first step it will maintain whatever the speed was at the instant before the button arrived at the first step. This allows you to hold any speed between the low and the high speed. If the hoist is operating at a speed that is less than high speed, and you wish it to operate at a faster speed, press the button to the second step to accelerate the hoist. When you reach the desired speed, release the button to the first step. Note that there is no deceleration function other than completely releasing the button.

3-Step Infinitely Variable Control

Uses a 3-step button and a VFD to control the speed. This control is similar to the 2-Step Infinitely Variable Control with the added feature of a deceleration function. If the hoist is operating at a particular speed and you wish it to operate at a faster speed, press the button to the third step to accelerate. When you reach the desired speed, release the button to the second step to maintain that speed. If the hoist is operating at a particular speed and you wish it to operate at a slower speed, release the button to the first step to decelerate. When you reach the desired speed, press the button to the second step to maintain that speed.

Contact Customer Service for additional documentation and descriptions.

CORROSION-RESISTANT CHAINS NICKEL-PLATED (NP) AND NICKEL DIFFUSED (ND) CHAIN

Examples of Corrosion Resistance to Acids, Salts, and Other Substances Under Normal Temperatures			
Substance		Concentration %	Corrosion Resistance
Air	Indoors, Outdoors	—	No Corrosion
Mineral Acids	Sulfuric Acid	10	Corrosion
	Nitric Acid	10	Corrosion
	Hydrochloric Acid	10	Corrosion
	Phosphoric Acid	10	Slight Corrosion
	Boric Acid	5	Slight Corrosion
Organic Acids	Acetic Acid	10	Slight Corrosion
	Tartaric Acid	10	No Corrosion
Alkalis	Caustic Soda	10	No Corrosion
	Ammonia	10	Slight Corrosion
Other	Salt Water	—	Slight Corrosion

Results listed in this table are for chemicals in a pure state. The degree of corrosion resistance may differ from this table with the presence of other chemicals, different concentrations, mixed substances or damage to the nickel surface layer.

UNIVERSAL LATCH KITS

Generic design to fit most hooks. Available in standard steel or stainless steel. Neck and throat dimensions can be combined for proper fit. (Example, neck size E with throat size L.) Neck measurement must be diameter—not circumference. Contact Customer Service for dimensions not shown.

Latch Kit Product Code	Neck Diameter N (in)	Throat Opening T (in)
A	9/16 to 5/8	1 1/16 to 1 1/8
B	3/4 to 1 3/16	1 1/4
C	7/8 to 1	1 3/8 to 1 1/2
D	1 1/8 to 1 1/4	1 3/4 to 1 7/8
E	1 3/8 to 1 1/2	2 1/16
F	1 5/8 to 1 11/16	2 1/4
G	1 3/4 to 1 13/16	2 1/2
H	1 7/8 to 2	3
J	2 1/16 to 2 1/8	3 3/8
K	2 3/16 to 2 1/4	3 1/2
L	2 5/16 to 2 3/8	3 3/4
M	2 7/16 to 2 3/4	4
O	3 to 3 1/4	4 1/2

Options and Technical Data

DUTY CLASSIFICATIONS

Hoist Duty Class	Typical Areas of Application	Operation Time Ratings at K = 0.65*			
		Uniformly Distributed Work Periods		Infrequent Work Periods	
		Max. Time (min/hr)	Max. No. of Starts/hr	Max. Time From Cold Start (min)	Max. No. of starts
H2	Light machine shop fabricating, service and maintenance; loads and utilization randomly distributed; rated loads infrequently handled	7.5 (12.5%)	75	15	100
H3	General machine shop fabricating, assembly, storage, and warehousing; loads and utilization randomly distributed	15 (25%)	150	30	200
H4	High volume handling in steel warehouses, machine shops, fabricating plants and mills, and foundries; manual or automatic cycling operations in heat treating and plating; loads at or near rated load frequently handled	30 (50%)	300	30	300

*K = Mean effective load factor.

LIFTING MOTOR RATINGS

Short Time Rating

This rating indicates how long the hoist can be operated continuously at the rated capacity on the cycle below, assuming continued operation for a short time span.

- Single speed: 60 min
- Dual speed: 30/10 min

Intermittent Rating (Percent ED)

Max. Number of Starts Per Hour

This rating indicates the allowable ratio of motor ON time to motor OFF time, and starts per hour for a hoist operated continuously at 63% of rated capacity on the cycle below, assuming continued operation or repeated starting over a long time span.

$$\text{Example (single speed): \%ED} = \frac{\text{Motor ON time } (t_1 + t_3)}{T \text{ (1 cycle)}} \times 100$$

(Where $T = 1 \text{ cycle } (t_1 + t_2 + t_3 + t_4)$ and is not more than 10 minutes.)

NER/ER Lifting Motor Ratings

- Single speed: 60% ED, 360 starts/hr
- Dual speed: 40/20% ED, 120/240 starts/hr

COMPLIANCE

Harrington's electric chain hoists are produced to comply with:

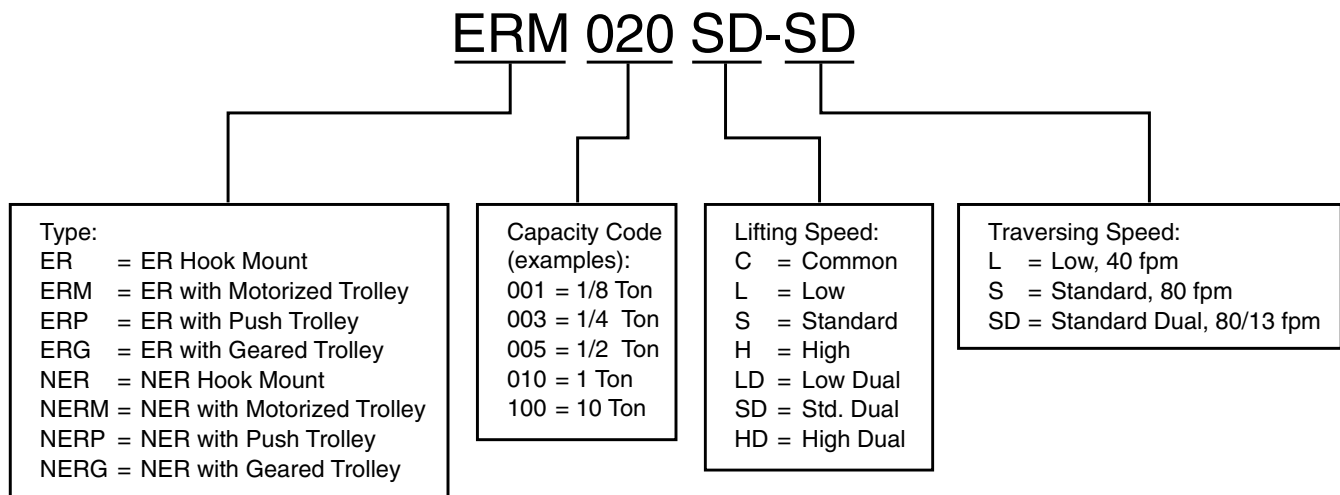

- UL 1340*
- ANSI/NFPA 70, "National Electrical Code"
- ANSI/ASME B30.16, "Safety Standard—Overhead Hoists (Underhung)"
- ANSI/ASME HST—1M, "Performance Standard for Electric Chain Hoists"

Harrington's manual and electric-powered trolleys are produced to comply with the trolley-related requirements of:

- OSHA Section 1910.179 of Title 29, "Occupational Safety and Health Regulations — Overhead and Gantry Cranes"
- ANSI/ASME B30.11, "Safety Standard—Monorails and Underhung Cranes"
- ANSI/ASME B30.17, "Safety Standard—Overhead and Gantry Cranes (Top Running Bridge, Single Girder, Underhung Hoist)"

*Most models shipped with UL listing. Contact Customer Service for listed models.

Complete Product Offering

Over the years Harrington has continued to respond to the needs of our customers by further expanding our product offerings. In addition to the many models described in this catalog, our full series of product catalogs, as shown below, will provide you with all of the information you will need to answer questions, specify a product and place an order. For catalog copies or answers to specific product questions, please contact our Customer Service Department by calling 800-233-3010 (Manheim, PA) or 800-317-7111 (Corona, CA) or e-mail customerservice@harringtonhoists.com

Manual Hoist Products Catalog

Refer to this Harrington catalog for detailed information on the following:

- Lever hoists
- Hand chain hoists
- Hoist and trolley combinations
- Low headroom trolley hoists
- Push and geared trolleys
- Hoist load testers

Electric Powered Hoists Catalog

Refer to this Harrington catalog for detailed information on the following:

- Three phase electric hoists and trolleys
- Single phase electric hoists and trolleys
- Ergonomic electric hoists

Air Powered Hoists Catalog

Refer to this Harrington catalog for detailed information on the following:

- Compact Mini-Cat with pendant, cord and manipulator controls
- Air hoists with pendant and cord controls
- Air trolleys

Electric Wire Rope Hoists Catalog

Refer to this Harrington catalog for detailed information on the following:

- Deck/base mounted or lug suspended hoists
- Standard headroom trolley hoists
- Ultra-low headroom trolley hoists

Crane Components Catalog

Refer to this Harrington catalog for detailed information on the following:

- End trucks-top running-motorized, geared and push
- End trucks-underhung-motorized, geared and push
- Double girder MAX-E-Lift end trucks
- Convertible push end trucks
- Beam accessory kits

Complete Cranes Catalog

Refer to this Harrington catalog for detailed information on the following:

- Heavy-duty Class C single girder top running and underhung cranes
- Heavy-duty Class C double girder top running and underhung cranes
- Medium-duty top running and underhung push cranes
- Crane control panels

HARRINGTON DISTRIBUTOR**

Warranty

All products sold by Harrington Hoists, Inc. are warranted to be free from defects in material and workmanship from date of shipment by Harrington for the following periods:

Manual Hoists & Trolleys—2 years

NER/ER Enhanced Features Models—3 years

Electric Hoists, Air Hoists & Trolleys, Crane Components—1 year

Spare / Replacement Parts—1 year

NER/ER “The Guardian” Electromagnetic Smart Technology Brake—10 years

The product must be used in accordance with manufacturer's recommendations and must not have been subject to abuse, lack of maintenance, misuse, negligence, or unauthorized repairs or alterations.

Should any defect in material or workmanship occur during the above time period in any product, as determined by Harrington Hoists' inspection of the product, Harrington Hoists, Inc. agrees, at its discretion, either to replace (not including installation) or repair the part or product free of charge and deliver said item F.O.B. Harrington Hoists, Inc. place of business to customer.

Customer must obtain a Return Goods Authorization as directed by Harrington or Harrington's published repair center prior to shipping product for warranty evaluation. An explanation of the complaint must accompany the product. Product must be returned freight prepaid. Upon repair, the product will be covered for the remainder of the original warranty period. If it is determined there is no defect, or that the defect resulted from causes not within the scope of Harrington's warranty, the customer will be responsible for the costs of returning the product.

Harrington Hoists, Inc. disclaims any and all other warranties of any kind expressed or implied as to the product's merchantability or fitness for a particular application. Harrington will not be liable for death, injury to persons or property, or for incidental, contingent, special or consequential damages, loss or expense arising in connection with the use or inability whatever, regardless of whether damage, loss, or expense results from any act or failure to act by Harrington, whether negligent or willful, or from any other reason.
